DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 25, 2009 has been entered.

Response to Arguments

2. Applicant's arguments, see p5, filed October 23, 2009, with respect to the 35 USC 101 rejections of claims 1, 3, and 12, along with accompanying amendments, have been fully considered and are persuasive. The 35 USC 101 rejections of claims 1, 3, and 12 have been withdrawn.

3. Applicant's arguments, see p5-7, filed October 23, 2009, with respect to the 35 USC 103 rejections of claims 1, 3, and 12, along with accompanying amendments, have been fully considered and are persuasive. The 35 USC 103 rejections of claims 1, 3, and 12 have been withdrawn. Further information is given below in the statement of reasons for allowance.

Allowable Subject Matter

4. Claims 1-12 are allowed.

5. The following is an examiner's statement of reasons for allowance: As indicated in the advisory action dated November 4, 2009, regarding the argument that Garrido does not disclose cut-frequencies, Examiner again refers to [0146] and [0147], in which a band pass filter eliminates frequencies exceeding a target. According to definitions in the art, these frequencies would be cut frequencies. As for the argument there is no mention of film grain, Examiner refers again to paragraphs [0054], [0131], and [0147], which indicate there is film grain along with other noise. However, as of the amendment dated October 23, 2009, applicant indicates the modeling is with the purpose of insertions of the film grain in a video sequence. While examiner found <http://web.archive.org/web/20040420183648/http://gimpguru.org/Tutorials/FilmGrain/> to be a relevant reference, the date of the reference is not valid, and additionally, no details are given as to how the system is operating. Further, examiner notes the following references for the addition of film grain to an image or an image in a video sequence: US 20040264795 A1, US 20020034337 A1, US 6995793 B1, US 5831673 A, US 5641596 A, US 5140414 A, US 4935816 A, however, these references do not show the details of the modeling and insertion as provided in claims 1 and 12, nor would there be sufficient motivation to one of ordinary skill in the art at the time of the invention to

Art Unit: 2624

combine these references with those previously provided in the office action dated July 31, 2009.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
